

national patent

- Capacitive touch screen
- Capacitive touch screen
- stream indicator
- ARM platform
- Ergonomic design
- automatic frequency-tuning
- other OS compatibility
- power display
- 100 meter remote control
- sensitive buttons
- bright laser
- plug and play

(the remote control can be purchased separately on demand)

Product introduction

Supercue series products are professional PPT clicker for all kinds of press conferences, speeches, conferences, etc. The product is composed of remote control, receiver and cable. According to the configuration, it varies in three versions: Mini, standard and Pro. Supercue series products are new products independently developed in response to market demand. The trademark, appearance and core technology of Supercue products have been applied for national patents.

Key functions

- 01.Using 433MHz digital communication technology and ARM hardware architecture
- 02.The transmission is more stable, the transmission distance is longer, and the penetration ability is stronger
- 03.LED Streaming Light for more accurate and intuitive display of page flip animation
- 04.Adopt HD capacitive touch screen for easier operation
- 05.Single unit can control up to 6 PC / Mac synchronously to turn pages
- 06.By cascading multiple units, more PC / Mac pages can be synchronized in page-turning
- 07.Support synchronous control of multiple remote controllers
- 08.Providing 9999 digital channels, more flexible matching
- 09.Ergonomic design of remote control makes it more comfortable to hold in
- 10.The remote control provides a timer display to clearly see the time on the page
- 11.Adopt rechargeable high capacity lithium batteries for easy use
- 12.High power laser is used to make the contents clearer
- 13.Flexible channel setting, easier matching

Most of the market similar products are Bluetooth/ 2.4G based communication technology, which incur complaints about short distance, interference and delay.

Bluetooth / 2.4G	Communication technology	433MHz
<20m	Transmission distance	>100m
Susceptibility to interference by WIFI and device over the same frequency	Transmission anti interference	Unique communication frequency band, stronger anti-jamming ability
100-1000ms	Transmission delay	10-100ms
10mw	Laser power	30mw
Conventional pen shape design, poor user experience	Ergonomics	Ergonomic design, more comfortable to grip
Low reliability civil products	Product Positioning	more cost-effective professional products

Applications

Key function descriptions

- Remote control
 1. Laser key: emit a 30 MW green laser
 2. OLED screen: provide current channel, power information and timing information
 3. On key: quick switch on and off
 4. Forward button: corresponding to PPT / keynote "Next" button
 5. Back button: corresponding to PPT / keynote "Previous" button
 6. Antenna: 433MHz high gain antenna
- Receiver
 1. Led capacitive touch screen
 2. Stream indicator
 3. DC power plug
 4. USB ports x 4
 5. Remote USB ports x 2
 6. Link interface x 2
 7. Program upgrade interface
 8. 433MHz high gain antenna

Touch screen UI

1. Working mode: Master / slave mode can be set for cascading multiple units
2. Device management: check the number and power of the linked remotes
3. Connection status: view the PC / Mac connected to the receiver
4. Shortcut: open / exit slide with single press
5. Quick Preview: can quickly preview the entire ppt / keynote content
6. Jump function: quickly jump to PPT / keynote to specified pages
7. Play mode: one key to set the playback mode of PPT / keynote
8. Manual control: can manually control ppt / keynote page up and down

Configuration introduction

Supercue standard configuration: remote control x 2, receiver x 1, packing box x 1
The remote control can be purchased separately on demand

Application topology

Detailed parameters

Remote control	
[size]	81*48*17mm
[power supply]	Polymer lithium battery
[weight]	140gram
[material]	Soft glue
[OLED screen]	Yes
[rechargeable]	Yes
[working hours]	20H
[power display]	Yes
[channel settings]	Yes
[number of channels]	9999
[timing prompt]	Yes
[laser power]	30mw
[vibration alert]	Yes
[ergonomics]	Yes

SuperCue Mini receiver	
[size]	38mm*17mm*8mm
[power supply]	USB
[material]	Soft plastic
[weight]	20g

Function comparison of supercue receiver

The supercue remote control can be paired with different receivers to realize the functions for a variety of occasions. The remote controller is universal, and customers can also purchase it separately.

Product / function	SuperCue Mini	SuperCue	SuperCue Pro
Product image			
Dimension(mm)	38*17.5*7	218*130*35	218*130*35
product positioning	Small and medium sized conference rooms / classrooms	Medium and large scale performance Conference	
Power Supply	USB	12V-DC	12V-DC
Communication technology	433MHz digital communication		
transmission distance	>50m	>100m	>100m
Communication status	indicator light	Stream indicator	
Number of synchronous control	1	6	6
Cascade function	No	Yes	Yes
touch screen	No	Yes	Yes
Countdown function	No	Yes	Yes
Time count	No	Yes	Yes
Call timing template	No	Yes	Yes
quick preview	No	Yes	Yes
Jump to specified page	No	Yes	Yes
From current slide function	Yes	Yes	Yes
Remote control power display	Yes	Yes	Yes
Channel settings	No	Yes	Yes
Number of channels	1	9999	9999
HDMI output	No	No	Yes
Prompter	No	No	Yes
